

### *Features*

- Long life and lasting stability of charging performance
- After fully charged it can use 24 hours
- Four hours needed to fully charge
- Efficient lithium batteries

### *Functions*

Contact by pop-up pins

Buckle housing to prevent poor contact or dropping

### *Technical Parameters*

Battery capacity: 4900mAh

Output voltage: 7.2VDC

Weight: 285g

Operation temperature: -20°C~60°C
